

Use S. Side School For "Transit Billet"

FEDERAL GOVT. LEASES BLDG. OF SCHOOL BOARD

Francis Reagan, federal field representative for Michigan, and Russell J. Darling, federal field representative for the state transit bureau, were in Grayling Tuesday evening and while here completed negotiations for leasing the South Side school, for use as a "transit billet."

"This is a part of the welfare work by the federal government and will be under control of the state transit bureau. Provisions are being made for 60 beds for use by anyone needing welfare assistance. Also there will be meals served."

To prepare the structure for use it will be necessary to first put on a new roof, the old one being in bad, leaky condition. And there will be changes in the plumbing, a number of the present toilets being changed to shower baths. And rooms will have to be provided for an office and a stenographer. There will be two men in charge of the place, besides a stenographer, and it will be kept open 24 hours of each day. This is a part of a nation-wide plan by the government for caring for delinquents, and is a part of the state welfare set-up.

The school board, in session Tuesday night, accepted the offer by Mr. Reagan and Mr. Darling, representatives of the federal government, for the use of the South Side school building to January 1st, next, for a "transit billet." Mr. Reagan says that the terms are as yet not fully determined, however it is quite the understanding, we are informed, to allow \$30 per month for the use of the school, which will be applied toward the cost of repairs.

The place will accommodate 60 persons for sleep, and an unlimited number for meals. Everyone accepting assistance from this "transit billet" will have to do some kind of work as return payment. In case anyone refuses to work after having received aid, he will be marched out of town by a police officer, with orders to "keep going," and a record kept for future reference. The local welfare unit will have to provide work for these men, wherever it may be needed—on the streets, parks, or any other public project.

In reply to our question "what would you have done if the school board had refused to let you have the school house," Mr. Reagan replied: "It wouldn't have made any difference, the 'transit billet' would have been located in Grayling anyway." He said that it was going to cost about \$2,000 each month to maintain this institution, most of which money would be spent with the merchants of Grayling.

It is expected that the place will be ready for use within two or three weeks. Workmen are starting immediately on the repair and remodeling work.

GUARD REVIEW TO BE HELD SATURDAY INSTEAD OF SUNDAY

A change from the day for the annual Michigan National Guard review will be made during the annual training period here in July. The review will be held on Saturday afternoon instead of Sunday as has been the custom ever since the Guard has been coming to Camp Grayling.

The several units of the Guard will arrive on July 6th or 7th and continue their training for two weeks, leaving between July 20th and 23rd.

The annual officers and Governor's review will be held on the afternoon of Saturday, July 14th. Memorial services will be held at 9:00 o'clock a. m. Sunday, July 15th.

Fashion Parade A Fine Success

The Fashion Review given by the Ladies Aid at Michelson Memorial church was a very interesting and pleasing affair.

Starting with a group of old fashioned creations, which were popular styles back in 1884, many of grandma's attic treasures had been brought out from old trunks and chests and pressed up to show off what the girls wore back in the good old days of crinolines, stays, bustles and what not, down to frocks worn by our own generation.

The program arranged in groups according to the age the clothes had been worn made an evening of pleasant comparison of the old and new, the then and now of dame fashion's ideas.

The church had been very attractively decorated with vines and blossoms for the entertainment. On the platform for the first group stood an old time chair beside grandma's spinning wheel, which made a pleasing setting for the quaint old clothes of yesterday.

The program which follows gives a complete picture of a very delightful entertainment. The several committees are to be congratulated on the success of the undertaking.

MRS. McDANIELS PASSED AWAY

Mrs. Frances McDaniels, widow of the late David McDaniels passed away at her home yesterday morning, after a week's illness. Last Thursday Mrs. McDaniels suffered a stroke of paralysis which left her in a very feeble condition resulting in her death.

Frances McDermott was born in St. Thomas, Ontario, June 21, 1862. Her girlhood was spent in Canada and she was united in marriage to David McDaniels at St. Thomas in June 1886. Three children were born to the union, all of whom survive.

The family came to Grayling several years ago to reside, and Mr. McDaniels passed away in January, 1930. Mrs. McDaniels was a kind and loving mother and a good neighbor and her many friends are sorry to learn of her demise.

The funeral will be held at the home Saturday afternoon at 2:00 o'clock with interment in Elmwood cemetery.

Surviving the deceased is a daughter and two sons, Mrs. Hazel Vanderveer and Neil McDaniels, Grayling and William McDaniels, Flint. Also five grandchildren: Albert Vanderveer, Douglas, Richard, Gloria Jean and Beatrice McDaniels, two sisters and three brothers, Mrs. Caroline Hill, Mrs. Z. Nichols, Walter and Edward McDermott of St. Thomas, Ont., Walter McDermott, Winnipeg, Ont.

The family have the sympathy of many friends in their bereavement.

TO ALL EX-SERVICE MEN IN CRAWFORD COUNTY

We feel that it is a duty, as well as a privilege, and an honor, to honor the memory of our departed comrades on Decoration Day.

Will you join us in our services on that day? We will meet at the American Legion hall at 9:30 a. m. The Grayling Post 109.

Juniors Give Delightful Party

Very effective were the decorations in the Seniors colors—blue and silver which turned the school gymnasium into a lovely ball room last Friday night. The occasion was the annual Junior Prom and the young hosts are to be commended on their ability as royal entertainers. There was a fine, large crowd in attendance with a number of out of town guests.

Judd's Varsity Vagabonds of Cheboygan certainly lived up to their reputation and made the evening one long to be remembered with their merry waltz and fox-trot music. A microphone in the orchestra pit carried the music to every corner of the large room as the dancers swayed to and fro to the lovely rhythms. To go back to the decorations, overhead in the center of the room was a large mirrored star from which was stretched a canopy formed of streamers. These streamers continued from the top of the balcony to the floor enclosing the dance floor, back of which was arranged cozy corners of comfortable wicker rockers and settees and lamps. Red flood lights cast a soft glow over all, making a very pretty arrangement.

Punch and wafers were served by members of the class to those who wished them, and every detail was carried out to make it an enjoyable evening for everyone. Miss Clara Atkinson and Robert Sorenson led the grand march closely followed by Emil Kraus, representing the Seniors accompanied by his sister Yvonne.

The school gym has been the scene of many pleasant parties, but we doubt if there has been any nicer one than the one sponsored by the class of 1935.

To Take Judges Out Of Politics

Crawford county is to be canvassed, within the next few days, to obtain this district's share of the 166,000 signatures on a petition asking that the election of supreme court justices and circuit and probate judges be taken out of partisan politics. The work is a part of the movement launched by the Non-Partisan Judiciary Committee of Michigan, which seeks to obtain an amendment to the state constitution providing for a non-partisan ballot for the judiciary.

A. J. Joseph of Grayling will engage in the solicitation, together with other citizens of Crawford county who are perfecting community and county organizations for the work. Men and women of all parties, who are sympathetic with the proposal, are being invited to take part in the drive.

More than 100,000 citizens already have signed the petitions and sixty-five counties are thus far represented in the membership of the temporary committee. It is planned to have signatures from each of the 83 counties in Michigan when the petitions are filed with the secretary of state July 1. With that official's acceptance of the petitions, the proposed amendment goes on the ballot for the November election.

Change in the selection of the judiciary long has been advocated in Michigan, with some citizens asking for an even more radical action. The Non-Partisan Committee deemed it advisable to propose a moderate change, which they feel is sure to be given the approval of the voters in November. With this amendment adopted, they say, the way will be paved for future progressive improvements in the matter of selection of judges and their tenure of office.

Local leaders are confident that they will experience little difficulty in obtaining Crawford county's quota of the requisite number of petitioners. The proposed amendment, they say, is popular with citizens in all walks of life, and is generally hailed as a great progressive step in government.

The offices of supreme court justices, and circuit and probate judges are too important, they declare, and too dignified, to be sought through the stress and chaos of partisan politics. It is more important, their contention is, to choose the men for his experience, ability and fitness rather than for his loyalty to a party standard or for his ability to garner votes in an inter-party struggle.

REMAINS OF ISAAC BOUSLAY BROT HERE FOR BURIAL

Isaac Bouslay, age 54 years, passed away at his home in Wyandotte Saturday night after a lingering illness. Mr. Bouslay had been making his home in Grayling for a couple of years, working at his trade as cook. It was while employed in this capacity at Paddy's Grill that he was taken ill and it was necessary for him to give up his labors and return to Detroit, where his family was residing.

He is survived by his widow, who will be remembered before her marriage as Susan LaMotte, daughter of the late Mr. and Mrs. Louis LaMotte and they had made their home in Grayling following their marriage, moving to Wyandotte about 16 years ago. Besides the widow six children survive, Floyd, Arthur, Marguerite, Annabelle, Ethel, and Betty.

The remains were brought to Grayling Sunday and the funeral held Tuesday morning with services at St. Mary's church at 8:30 o'clock. Six nephews of the deceased acted as pallbearers, Floyd, Ernest and Roy Lovely, William Wilson, Roy Failing and Robert LaMotte. Interment was in Elmwood cemetery.

Friends of the family extend sympathy in their sad bereavement.

Golfers Invited To Houghton Heights

MEN, WOMEN AND CHILDREN INVITED FOR NEXT FRIDAY

The Houghton Lake golf course has taken a new lease on life this year. The club house, which last year was moved up onto the rise overlooking the first tee, the ninth green, and the lake, has this year been remodeled and redecorated inside.

Those in charge of the course would like to have all their friends and neighbors see these changes; and with this in mind are inviting everyone to be their guests on Friday, May 25th. Come and play all you like from dawn until dark.

On account of the hard winter, the late spring, and the lack of early rains, the course has been slow in coming into shape, but no effort has been spared in making it quite playable for you.

Golf course have put out strange blossoms this year, and so the Houghton Lake Golf course announces a book shop and circulating library, which they hope will add to the pleasure of the summer guests at the Lake.

We say again—Come and bring your friends on May 25th. Lewis L. Michelson.

There are several homes in
Grayling without a mother, where
the father and children are trying
to keep house as best they know
how. Mrs. Frank Barnett, of the
County Poor Commission and
Mrs. Peterson, welfare officer are
trying to rehabilitate these homes
by attempting to have them receive
a regular spring house-cleaning,
the work to be done by welfare
labor. In most of these homes
there is bedding needed such as
mattresses, pillows, etc., so if
you are discarding any of these
things this spring, notify these
ladies. Also odd pieces of furni-
ture, dishes or cooking utensils.
They will place them where they
are needed most and they are sure
to be very much appreciated. This
is very worthy work and the
ladies should have the backing of
everyone in their efforts.

Headquarters for the Citizens
Military Training camps is wonder-
ing why there have been no ap-
plications from Crawford County
youths to attend the camp this
summer. Our quota is only one
but it is hoped that at least two
applications will be submitted.
Last year there were many more
applications from this county than
were needed. It is a privilege for
any young man to be able to take
this period of training at the ex-
pense of the government, and with-
out pay. The training alone and the
experience is well worth any young
man's effort. If you want to be
the lucky fellow, run right down
to the postoffice and notify Post-
master Nade that you want to
make application. Perhaps two
boys can get in, in case that some
of the larger county quotas are
not filled promptly. After May
31st, no applications will be con-
sidered.

And the record of over 3,000,000 Chev-

doubt about it: The only way to get
real economy in a low-priced car is
to insist on Six cylinders and
OVERHEAD valves.

SIX cylinders—no motor—because
extra cylinders mean extra cost for
gas, oil, upkeep and parts. OVERHEAD
valves—nothing else—for the same
good reason that airplanes use them.
And speedboats. And racing cars. They
get the MOST power out of the LEAST
gas. That's why overhead valves are
the choice of leaders—and champions.

will be the best man. Capt. Nester
and Educational Director L. B.
Merritt of Camp Higgins will be
in attendance at the wedding. Lt.
Harley and his bride will return
to Grayling in a few days and will
be at home to their friends at
the cozy cottage of Miss Isa
Granger at Lake Margrethe.

Mr. and Mrs. M. A. Bates re-
ceived a letter from their son, Lt.
R. E. Bates, Wednesday, from San
Francisco. Emerson is enroute to
the Philippine Islands where he
was ordered for service by the
U. S. War department. Emerson
left via New York City, to Pan-
ama Canal and to San Francisco
where he will remain until Friday.
His next stops will be at Hawaiian
Islands and Manila. About June
24th he expects to arrive at Cor-
regidor Island where he will be
stationed during his service in
broad. He has promised to send
us more of his interesting letters
about his travel experiences. Our
readers always enjoyed his letters
written at the former time he was
stationed in the Philippines.

Clyde Lozon and sister Phyllis
Jean of Maple Forest, both re-
ceived face lacerations Monday
when the former, driving the
family car, ran into the rear of
a conservation truck that had
apparently stopped about four
miles the other side of Frederic.
The Lozon car caught fire from
the impact and burned. The two
injured persons were brought to
Mercy Hospital where their
wounds were dressed and they re-
turned home soon afterward.

In Memoriam

In loving memory of our dear
loving mother who died 5 years
ago today, May 23, 1929.
This day brings back sad mem-
ories
Of one who has gone to rest;
And those who think of her today
Are those who love her best.
Oft and oft our thoughts do
wander
To a grave not far away,
Where we laid our dear loving
Mother
Five years ago today.
We think of her in silence.
No eye can see us weep.
But many silent tears are shed
While others are asleep.

Children.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

Thursday, May 18, 1911

A. B. Felling is in attendance at the meeting of the Grand Lodge F. and A. M. at Port Huron this week.

Miss Anna Reiss of Ludington, sister of Father Reiss, is spending a few weeks here.

J. Kraus is building a residence on the lot east of the home of Prosecuting Attorney Walton.

At present three new cases entered the hospital. Two critical operations took place. The patients are all progressing nicely.

Geo. Langevin's new house is progressing so that it is to be a handsome addition to our village, and an elegant home.

Four inches of rain fell here Sunday P. M. within two hours and half as much on Monday with terrific thunder and lightning.

Miss Laura Simpson is home from her school at Benton Harbor for the summer vacation, their school year having closed last Friday.

The Misses Clara and Ida Wagner, sisters of Mrs. Tillie Mills, are visiting here. This is their first visit, and they are well impressed with "the only town on the map."

Chief Shoppenagons is enjoying a rest in Mercy Hospital, his extreme age and debility demanding better care and treatment than could be furnished in his home.

Miss Emma Sherman has accepted a position in the A. E. Morish drug store to look after the express business. She has had considerable experience in express work.

Rev. Father Reiss accompanied Bishop Richter of Grand Rapids,

to Marquette where a new Catholic church was dedicated; also to Gaylord where a class of nearly 200 were confirmed.

Mrs. William Fischer and daughter, and Mrs. T. Bosson and daughter started for Denmark Tuesday bearing with them the best wishes of our people for prosperous and happy voyage and safe return.

F. R. Deckrow is utilizing the runabout auto, driven by Dr. Merriam last year. F. O. seems to be the chief chauffeur, but either of them "get there just the same." It will save a heap of walking in their business.

Our citizens were surprised and saddened last Monday morning to hear of the sudden death of J. V. Miller, of Lovells. He is survived by his widow, one son Charles and daughter Mrs. James McNeven of Grayling.

Lovells Locals (23 Years Ago)

The fishing season is open and in full blast. Quite a number at the Douglas House. They all say fish is plentiful.

E. Douglas has a fine auto in which he carries the fishermen to and from the fishing grounds.

The shingle mill is running full time.

All the farmers around here are happy in getting their crop in so early, and the rain we had so plentifully is helping wonderfully.

Joe Simms has quite a patch of strawberries in full bloom; he expects to have a good crop.

Joe Duby and Alfred Nephew are working a farm a few miles out of town.

Mrs. J. J. Kennedy is visiting her mother in Detroit.

Assembly Line Operates May 14

Chicago, May 12.—The actual building of automobiles on the Chevrolet assembly line in the General Motors building at A Century of Progress—The Chicago World's Fair—began May 15, according to an announcement made here today by Dudley Fraser, production manager of the line.

Thus, with more than ten days before the official opening day of the 1934 exposition, Chevrolet workmen will have ample opportunity to familiarize themselves with the newly-installed assembly line machinery and the special precision tools with which they will demonstrate to the exposition's visitors all summer the smooth and painstaking manner in which all Chevrolet cars are built.

The assembly line will operate daily, except Sunday, from 1:30 to 5 and from 6:30 to 9 o'clock each day. Mr. Fraser stated. Working hours, therefore, are predicted on the 36-hour week set by the automotive code of the N. R. A.

Coaches and four-door sedans of the "knee-action" Master Six line will be assembled this year. Present plans call for approximately 20 cars to be turned out each day. Although the world's fair assembly line is a duplicate of that in operation in each of the nine assembly plants throughout the United States, the cars will be assembled in more or less "slow-motion" in order that watchers may keep track of each of the many intricate operations.

Each Chevrolet built this year at the General Motors building will bear a specially-designed medallion on the instrument panel. More than 200 employees will be engaged in building these cars. It was stated. Material for the bodies and chassis will be brought into the plant each night after ten o'clock when the exposition closes.

When we find ourselves in a dilemma, there may be a certain amount of satisfaction in the knowledge that it was not our fault, that we had done our best, that the adverse results were brought about through forces entirely beyond our control. Momentary satisfaction, but what then? Is the fault remedied, the situation improved? Not at all. We are just where we began—faced with the necessity for doing the thing that will help.

It is interesting to note here the origin of the word "scapegoat," from which we also have our modern slang expression, "making some one the goat." The word comes to us from a legend of the Hebrews, antiquity when the people attempted through sacrifices to make atonement for their sins. Sometimes there were sins that could not be paid off in this way, sins that could not even be narrowed down to those responsible. These sins a tribe or group would metaphorically heap on a goat, who, with his load of guilt, would be driven into the wilderness to expiate the crimes of ingenious humans!

Life is not so simple today. In this hard-boiled age, there are no scapegoats, on which to load our sins. Today our problems, our faults, mistakes, whatever they may be, come home to roost. And the only way to get rid of them is to take the bull by the horns (not the horns, but the horns) and face them.

THROUGH A Woman's Eyes

By JEAN NEWTON

THERE ARE NO SCAPEGOATS TODAY

ON WHAT does scapegoat are we going to saddle the burden of our responsibilities?

reference to certain aspects of our economic and political conditions which it is not the purpose of this column to go into. What interests us is much that is brought to mind by mention of that word "scapegoat."

It reminds one of the people (women, we may well say, because this is not a predominantly masculine trait) who, whenever happens to them are interested first and foremost in finding some one or something to blame, of course, it never changes anything, but it does some one to blame. But finding by the relief with which some of us pounce on a pretext for placing responsibility at any door but our own, one would think that this in itself eliminated the trouble, the burden.

When we find ourselves in a dilemma, there may be a certain amount of satisfaction in the knowledge that it was not our fault, that we had done our best, that the adverse results were brought about through forces entirely beyond our control. Momentary satisfaction, but what then? Is the fault remedied, the situation improved? Not at all. We are just where we began—faced with the necessity for doing the thing that will help.

THE CONQUEST OF FEAR

By LEONARD A. BARRETT

The most serious problem confronting our country in the recovery program is the "Fear of Fear." Before the adoption of the national recovery act, the country feared an economic panic. No person dared to prophesy what the future had in store for us. It seemed as though we were on the crest of a volcano which threatened to blow up at any moment. The attitude assumed by many persons was to hoard all possessions, spend as little as possible and let debts slide.

Something happened. The recovery act was not only announced but put into active operation. The chief objective of this act was a very serious attempt to solve the paradox of "starvation in the midst of plenty."

The recovery act does not promise to work a miracle. It is no panacea for our economic ills. Its program will need to be modified as changing conditions arise. On the whole, however, it has accomplished a great step forward. The return of confidence means the conquest of fear. Not only will fear be conquered through confidence in our government but also through confidence in ourselves. This is no time to dissipate our strength by worrying over what is going to happen next year. Fear as to the future will yield to confidence in the present if we seek strength sufficient for each day's need. What we need is not a revolution, but an evolution—the gradual development in our economic and social life of those principles upon which the safety of a democracy depends. It will take time to complete the work of the recovery act. "No deep-seated or long-standing disease can be cured in a day." Live one day at a time. The conquest of fear is our most serious problem. May each person do his part in solving it by seeking strength for the responsibility of each day as it comes. This attitude will change fear to faith.

POTPOURRI

Ant-Eater

The South American ant-eater ranges from 4 to 7 feet, its head and tail forming more than half its length. It has no teeth. With long, powerful claws, it digs out termites, garnering its prey with a long tongue covered with sticky saliva. It sleeps by day and "hunts" by night.

FAT FOLKSKeep Cool and Peppy All Summer
Long While Losing Fat The
Safe Way—The Right Way

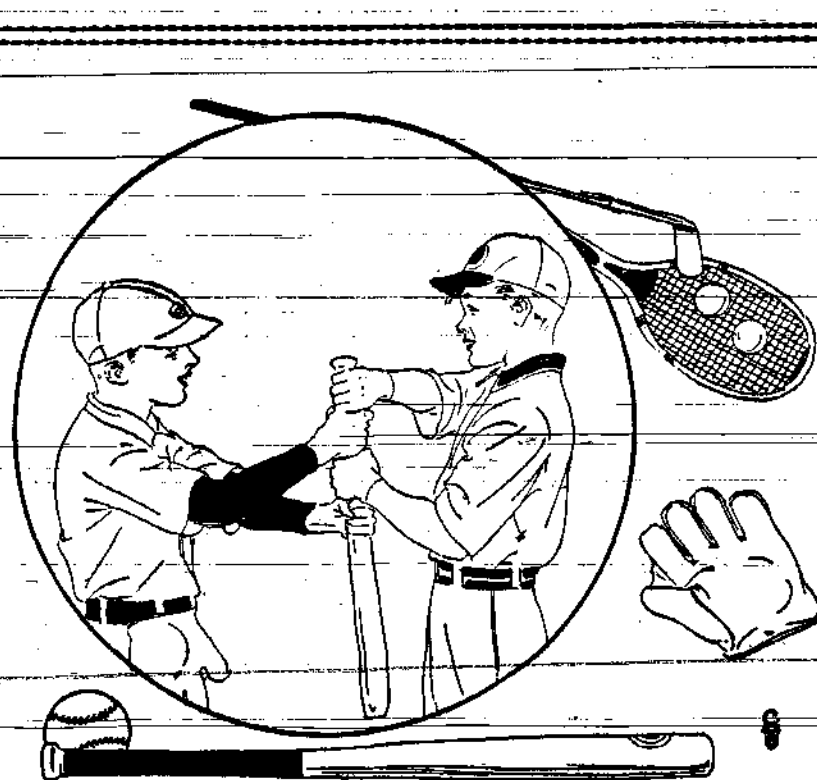

Out of the thousands of letters received we give you this one from a grateful young man.

"I am 23 years old. I weighed 210 lbs. about one year ago when I started to take Kruschen. Salt off and on for nine months. I lost weight alright so I began to take it regular for the last 3 months. I now weigh 145. I feel better, look better and I am O. K. in every way. I also eat anything I want."—Mr. J. C. Record, Miami, Fla.

While losing unsightly fat with Kruschen you gain in health for Kruschen acts on liver, kidneys and bowels and helps keep body free from poisons and acid.

Keep cool and full of pep this summer by taking one half teaspoonful in a glass of hot water every morning. Get it at Mac & Gidley's.

Some people are expecting General Johnson of the NRA to do some "cracking down" while others seem to believe that the NRA itself will soon do some cracking up.

THE SEASON IS ON

Sand lots spring back into life; golf clubs, tennis racquets, croquet sets, fishing rods and other out-door appliances, come out from their winter hiding, and the game is on.

Summer days bring new opportunities for recreation, and new opportunities for business.

THIRST-QUENCHING DRINKS

LONG ago before a mixed drink was ever thought of, the lemon was the king of fruit, used for refreshing healthful drinks as well as served hot, for medicinal purposes. Today it is more popular and more widely used, as it is needed to give zest to almost any other fruit drink.

For those who like to have a tinkling drink to offer a friend in a hurry, the fruit juice mixed with the sirup is a great convenience. Take one and one-half cupfuls of lemon juice and add three cupfuls of sugar. Bring to a boil and cook for ten minutes. Then bottle and place in the ice chest. Use the sirup in glasses of water and ice without any further preparation. A tablespoonful or two to a glass is sufficient.

Lemons as well as oranges are rich in vitamin C. They are recommended as the best kind of a preservative for the teeth. Mix lemon juice and salt and use as a cleanser of the teeth and gums. Add water and use as a mouth wash. It leaves the mouth refreshed and stimulated, is especially good for the gums, to harden and keep them firm and healthy.

Raisins.
Put one pound of raisins through the food chopper, add a quart of water and bring to a boil, then let stand over night. Add the juice of two lemons, two tablespoonfuls of the sirup and pour into glasses half filled with cracked ice.

Coffee Caramel Parfait.
Scald one and one-half cupfuls of milk with two tablespoonfuls of ground coffee, add one-half cupful of caramelized sugar, one-fourth teaspoonful of salt to the strained milk and coffee. Beat two egg yolks with one-half cupful of sugar and add to the other ingredients. Cool, add a teaspoonful of vanilla and one and one-half cupfuls of cream. Pour into a mold and pack in ice and salt for four hours.

Tack \$50 Bill Outside

Nobody would think of nailing a \$50 bill to the outside of the house and expect it to stay without protection; but people will put more than that much in siding, expose it to the weather without paint, and then complain because it doesn't stay in good condition. Continuing to Drive With Winter Oil
Costs You Money Daily

It's high time you changed to a heavier motor oil—as an economy move! Lighter oils are subject to faster and faster consumption as the mercury continues to rise. Besides, if you have been using ordinary oil the chances are that there is trouble-making sludge in your crankcase right now.

You know how the ugly mess called sludge fouls the oil filter and lines—makes piston rings stick and causes costly pumping of oil—slows down valve action, bringing wasteful loss of gasoline power.

So get rid of sludge, once and for all, by having your crankcase drained at a Standard Oil station—then refill with Iso-Vis "D", the anti-sludge motor oil. You'll have an economical, sludge-less summer and a clean, lively, efficient engine.

WHY A COMMUNITY NEWS-PAPER?

Contact sponsored by Adrian Van Kesteren of Zeeland, Michigan.

(By Mrs. Anna Beckwith, Belding, Mich.—Favorable Mention).

When we are children our parents send us to school for an education. Perhaps we go through college, but when we have finished school, it does not mean we have finished our education, for in truth it is just nicely begun. We all read nowadays, it is an educated habit. What we read is important. Our reading matter should be of a moral and educational nature. We will find us broader scope of subjects, and lessons with morals, of character building and self improvement, than those brought to us through the columns of our community newspaper. It is a school for all up-to-date in political, social and civic information. We look forward to its coming, as we do a friend. Good books are good friends, so is our community newspaper. We pave roads for cars to travel on. There is no better road for our minds to travel, than the columns of our community newspaper.

Employment until the past few years, like our community newspaper, and local banks, were all taken too much for granted. We took them all as a matter of course. We thought we would always have them as long as the sun rose and set. Through reading it we are kept posted with all movements of vital importance. Keeps us interested in what is going on, inspires a community spirit makes us loyal citizens. Like the old proverb, "It's the dimes that makes the dollars." So it is with the communities, when taken as a whole we make the nation. Communities built up of good citizens, through community newspapers, are certainly worth while.

When we build a structure first we make plans, these we follow as a guide, we lay the foundation, build the frame and roof, and all other parts of the best material available. In order that our building stand the test of time and the elements, it is necessary that we constantly keep the same in repair. In the same manner we are constantly educating our minds through our community newspaper.

Even though we have a radio, perhaps a telephone, and the modern speed of airplanes and autos, we could not conveniently get along without our community newspaper. It covers more subjects of interest than any other form of civilization. To be without it would be almost barbaric. We don't want to wake up and find ourselves as antique as Rip Van Winkle; but keep the cobwebs from our minds by keeping in touch with the times. Most of us really go through the world with our eyes shut, and if it weren't for having things put before us in black and white, we never would see them.

These past depressing years have been for the good of all of us. They have taught us many things. One of the many is our first thought. One of the lessons we have learned is to budget our income. In doing this we turn to our community newspaper for bargains and savings. If we have something to sell we turn there also; or if we want to swap—our community newspaper is our first thought. One of the bargains we don't fully realize or appreciate, is the value received for the small subscription price of our paper. There is no better asset in a community than our

community paper. If we were threatened with the loss of our paper we no doubt would put up quite a howl, otherwise we give it no serious thought. Like our banks, we did not fully appreciate them, until it was too late. When we lose a friend through death, we send flowers, etc., let's not wait so long; let us give them the roses now. Regardless of the depression that has crippled many, it still can turn to our best friend, our community newspaper, which has weathered the storm.

We read about our friends, what they are doing, their trials and triumphs; of public improvements, social and civic affairs; and we don't have much time left for ego. We know our editor and his staff and through this acquaintance, are more interested in our community newspaper, and through its periodic visits we are self-improved.

In all walks of life no matter what is undertaken the first important step is to appoint a leader. We have generals to lead armies, presidents to lead nations, kings to lead monarchs, and so on down the line. Also in this day and age there is insurance for almost everything. Now we have bank deposits insured, of which we all approve. There is life insurance, fire, wind, auto, aircraft and many others. There is no better insurance we can invest in—than a good clean, lively community newspaper, which we will agree is the leader of good communities.

Camp Higgins

Mr. Ed. Zertle, superintendent of the state nursery, talked to the forestry class last week on forest enemies. His remarks were very instructive and much appreciated.

The Roscommon band was unable to play its concert last week at Camp Higgins Lake, but will keep the appointment at an early date.

Capt. Todd is holding services at this camp Sunday noon instead of Wednesday nights hereafter.

An inter-camp baseball schedule has been arranged. Most of the games between camps will be played on Sundays.

The number of men on company overhead has been reduced in order to have every available man on a work project.

Lieut. J. D. Hartley announces that he will be married May 26th to Miss Wilma Land of Van. He has requested a short leave to celebrate the occasion.

A glee club is holding weekly rehearsals at this camp under direction of Capt. Todd. He is quite optimistic as to their ability.

Mr. Thomas Wells of Grand Rapids spoke to an assembly last night (Wednesday) on fire prevention.

CAMP PIONEER

Conservation Officer Harry Aldrich of Roscommon will be speaker at an assembly Thursday night of this week. He will talk on two subjects, "Forest Fire Fighting Technique" and "Game and Fish Laws."

An educational survey shows that six men in this camp have some college education, 27 more are high school graduates, 18 went through the junior year, 22 completed the 10th grade, 30 the freshman year, 54 are eighth grade graduates, and 10 have less than eighth grade training.

Lieut. J. S. Tennery announces alterations and improvements will soon be made in the officers' mess room. Some new lumber has been bought to repair the tables in the mess hall.

An intramural soft-ball schedule is proving a popular after-supper diversion for quite a number of enrollees. Lieut. Cropp, who directs athletics at the camp, says the Company is organizing a hard ball team and challenges any team in the district for games.

The company strength was increased by the arrival of 10 men from Camp Custer Saturday morning.

A much appreciated concert was given by the Roscommon band last Thursday night, consisting of 16 pieces and directed by Wm. Curran. The music was followed by three reels of moving pictures.

Lewis Walker broke his leg while playing ball Friday evening. He was taken to Mercy Hospital at Grayling.

The veterans decidedly defeated the rookies in a soft ball game Thursday night. The contest had been the subject of much debate for several days before it was played.

"I cut Mileage Costs 12% —with Your New SUPER-SHELL"

says
MR. DODDLE
CHICAGO

THOUSANDS have changed to this
"Super-charged" gasoline to get the extra power,
pick-up and mileage in every gallon of Super Shell

WHEN YOU have a gasoline with as many as 6900 extra power charges in every gallon, you have a motor fuel that motorists are going to talk about!

And everywhere drivers are saying: "These extra power charges in your improved Super Shell give me quicker pick-up, more power, and extra mileage!"

We knew you motorists would like Super Shell. Because, first, we questioned 200,000 of you motorists and found out what you wanted in a gasoline. Then, we made the exact gasoline you asked for, by developing a new refining process which actually "re-

makes" the chemical structure of gasoline.

Here is a gasoline that is different. So different you can feel it in the surge of power when you pass cars on the road. So much better that many motorists tell us they are getting as high as 1, 2, or 3 extra miles per gallon.

If you haven't tried Super Shell we invite you to today. No price increase.

"WE'RE SAVING MONEY," says Mrs. A. S. Terry, Detroit. "I watch our gasoline bills like a hawk, and since changing to Super Shell we use fewer gallons every week."

Roscommon.

Capt. E. W. Todd, district chaplain, will hold services at Camp Pioneer Monday nights hereafter, instead of Wednesday.

Conservation Officer Aldrich of Roscommon will speak tonight (Thursday) on "Forest Fire Fighting Technique" and "Game and Fish Laws." He was unable to speak last week as originally scheduled.

Lieut. Cropp, who directs camp athletics, is anxious to arrange games for his soft ball and hard ball teams.

The few veterans still with the company from its original enrollment will be leaving the last of June, under the new policy of limited enrollment.

LOVELLS

(By Mrs. C. Nephew)

CAMP DAGGETT "The Pioneer Community Camp of The North"

Dear Friend:

The whippoorwill whistles; the chipmunk chatters; The owl who's, now what's the matter?

Boys in swimming, water cool and blue,
Boys around the camp fire, is one you?

We certainly hope so, for we have planned a most interesting program for this summer. Listen

to this—Boating! Aid to correct swimming! Overnight hikes! Splendid chances to try your hand at cooking in the open air! Camp-fire Council!

Then, how about learning more of plants and insects? We hope to have a special teacher for nature study.

There will be a chance for you to take work in woodcraft, building rustic seats for council circle, or for visitors.

Do you know that for eleven years boys from these northern regions have been mingling together under excellent counselors,

building sturdy bodies and strong, good characters?

Spend your valuable hours in a worth-while manner at this excellent location—Camp Daggett.

Parents, if interested in providing an ideal vacation for your boys and girls, please write me.

Sincerely yours,
Walter J. MacMillan,
Director

Could You Rebuild After the Storm?

THE WINDSTORM INSURANCE MONEY this Company has paid to policy holders after a cyclone had wrecked their buildings, has enabled many to rebuild at no cost to themselves, who could not otherwise have done so.

This Company has paid a YEARLY AVERAGE of more than \$200,000 for WINDSTORM LOSSES since 1917. \$223,465.05 paid in 1933. WHO KNOWS what the loss will be in 1934?
